Footnote #	Footnote Narrative			
1	The department wishes to recover the full cost of service (including consultant cost) for all major projects. If the processing cost of an application, including environmental review or administering the conditions of approval, will be substantially in excess of the fee/deposit, the applicant may be notified before the project is scheduled for public hearing that the total processing cost will be determined by full cost recovery techniques and that additional charges (invoices) may be forthcoming. Invoices not paid within 30 days of billing will have all processing of the project stop until the invoice is paid in full. This option can also used where the department determines that processing costs will be substantially less than the original fee/deposit. In this case, the unused portion of the fee/deposit will be refunded. Billing for Land Use/ Division Applications will be at \$142/per hour. Billing for Building permit applications will be at \$133/per hour. These rates will be charged at 1.5 times the hourly rate when work is performed during overtime conditions that arise due to applicant's request.			
2	The Department wishes to recover the full cost of staff time required to resolve land use violation cases that do not require issuance of a land use permit. The Department shall notify the property owner at the time a violation is verified to exist. The total administrative cost of resolving the enforcement case will be determined by full cost recovery techniques and the property owner will be billed accordingly.

All requests for refunds shall be in writing from the property owner or designee as listed on the application as originally filed with the department, with the refund paid only to that owner.		
	4	<p>The Planning Director is delegated the authority to grant fee waiver requests for land use and construction permits on development projects that are proposed by volunteer, community and nonprofit organizations for the benefit of an entire community when the project satisfies the following criteria.
